USAID/MOEYI PARTNERSHIP FOR IMPROVED SAFETY AND SECURITY IN SCHOOLS

CONTRACTOR: MINISTRY OF EDUCATION YOUTH AND INFORMATION

DURATION: 2017 – 2019

TOTAL PROJECTED INVESTMENT: 3,000,000

FUNDING SOURCE: CBSI

USAID/MOEYI Partnership for Improved Safety and Security in Schools is intended to reduce anti-social and violent behavior among youth both in schools and out of school. It is also of concern that many crimes against students were committed by persons from the community gaining access to school premises, as well as students bypassing the security checkpoints due to breaches in the security fence of many schools.

The prime objective for the Ministry of Education, Youth and Information through this initiative is to implement the necessary measures to transform schools and their immediate surroundings into safe zones through a multi-layered, multi-sectorial approach, utilizing community, parents, public and private partnerships in an effort to ensure a quality education system and raise the bar to benefit all learners, both male and female.

This project will address some of the challenges relating to the maladjusted behavior of children in schools. These challenges have continued to disrupt the normal flow of learning and in most cases affect the general quality of education being provided for our children.
